MARYVILLE, MISSOURI, TUESDAY, OCT. 15, 1912.

NO. 115.

THE WORK TO BEGIN

MAINS FOR NEW HEATING SYSTEM TO BE LAID AT ONCE.

WORK TO START MONDAY

Radiators for Business Houses Will Be Put in by Plumbers and Mains Will Be Laid by Company.

Work will commence next Monday on the new heating system to be installed here by the Maryville Electric Light and Power company. Manager Hellmers of the company expects a man here in a day or so who will have charge of the work, and then the mains will be put in the streets in the business section of the city.

The plumbers will have charge of putting in the radiators in the business houses that have agreed to take the heat. The radiators are here and all the material and machinery for the light company have been shipped and will be here by the last of the week.

The work has been delayed, owing to labor troubles back east, and also to the shortage of freight cars. However, Manager Hellmers believes that the mains will be laid in two or three weeks if enough help is secured. Heat will then be given about the first week of November.

The conduits or mains are to be put in from the light plant to Main street along Fifth, and then on Main to the opera house block. From Main it will go on Fourth street to Market, and also on Third to Buchanan. Permission has been granted to the company by the city for the use of the streets with the understanding that the streets will be put back in good condition.

EXHIBITS SENT BACK.

Manual Training Exhibits That Won Prizes at Sedalia Are Back.

The exhibits from the manual training department at the Normal that were on display at the educational exhibit at the state fair at Sedalia, were received this morning by Prof. Frank Shepherd of that department. The cabinet work secured first premium, and third premiums went to the brass and copper work, and also the wood carving and turning work.

State Superintendent of Public Instruction Evans writes Mr. Shepherd in part as follows:

"I congratulate you upon the excellent showing made by your school in the educational exhibit at the state fair this year. The educational exhibit this year surpassed that of any previous year. Many more schools made exhibits, the competition was closer, and the work shown was better than ever before."

FOUND DEAD AT HOME.

Mrs. Fred Jacobs, an Invalid, Died While Husband Was at Work.

Mrs. Fred Jacobs of this city was found dead in her home on West Eleventh street Tuesday forenoon at 11 o'clock. Her husband, who is a carpenter of this city, was employed at his work out in the country some nine miles, and Mrs. Jacobs, who had been feeling badly for several weeks, was visited by her neighbors regularly and given little attentions that an invalid would appreciate.

Mrs. Jacobs was subject to severe weak spells, due to a weak heart, and her friends have feared that death would come to her suddenly. On Tuesday morning several of her neighbors noticed that the window shades were drawn as at night, and upon speaking of it to one another it was found that none of them had seen her about the house that morning. Three of the neighbors, Mrs. George Workman, Mrs. E. W. Friend and Mrs. Henry Trullinger, then went to the Jacobs home and forced open the door. They found Mrs. Jacobs lying in bed as though asleep, but she did not answer their call, and when they reached her bedside they saw that she was dead. The bed clothes were not disturbed and there was no sign of pain on the woman's face. Death came during sleep, probably soon after she had retired, for the body was quite cold.

Mr. Jacobs was notified at once and was brought to Maryville in a car. Mrs. Jacobs' sister, Mrs. Madison Goodson of Ravenwood, was also notified, and was soon in Maryville.

Dr. J. H. Todd, the coroner, had not returned from a professional visit to the country at 2:30 o'clock, and it is not known if he will hold an inquest.

Mrs. Jacobs had been in poor health for a good many years, and the suddenness of her death is not a great surprise to those who knew her. She left no children.

WOUND IS SERIOUS

REPORTS OF ROOSEVELT SHOOTING UNDERESTIMATED DANGER.

HE IS A VERY SICK MAN

At Mercy Hospital in Chicago and His Physicians Say He Requires Absolute Quiet.

A dispatch from Chicago late this afternoon stated that Theodore Roosevelt, who was shot at Milwaukee, Wis., Monday night, was in a more serious condition than at first thought. After a second examination made by the physicians this afternoon a statement was issued by them saying that the wound was more than a flesh wound and was a deep and serious one. The statement went on to say that Mr. Roosevelt must not talk and must not be disturbed, as he is a very sick man. The physicians reported that it pained Mr. Roosevelt to breathe. It will be necessary for him to have absolute quiet for some time.

Mr. Roosevelt arrived at Chicago about 5:30 o'clock Tuesday morning and was taken to the Mercy hospital. He ate a hearty breakfast and chatted with many friends. The first examination was made this morning by the physicians, and it was stated that the wound was a flesh one and that an operation would have to be performed.

Milwaukee, Oct. 15.—Col. Theodore Roosevelt was shot and wounded as he was leaving the Gilpatrick hotel for the Auditorium to make a speech.

The wound did not prevent the ex-president from making his speech. He insisted the wound was superficial and went on to the hall after he had seen the assassin arrested.

One of Roosevelt's campaign aids seized the assassin and held him until policemen came up.

The assassin, who is small of stature, admitted firing the shot, and said that "any man looking for a third term ought to be shot."

In notes found in the man's pockets at the police station were statements that the man had been visited in a dream by the spirit of William McKinley, who had said, indicating Col. Roosevelt:

"This is my murderer, avenge my death."

"I'll Make This Speech or Die." The colonel felt no pain at the time the shot was fired. He was not aware that the shot had taken effect until he was on the way to the Auditorium.

His attention was then called to a hole in his overcoat, and he found that his shirt was soaked with blood.

He insisted that he was not hurt badly. A superficial examination of the wound was made when he reached the Auditorium and three physicians agreed that he was in no immediate grave danger.

In spite of the entreaties of physicians, Col. Roosevelt insisted upon delivering his address.

"I'll make this speech or die, one or the other," he said.

Henry F. Cochems told the great crowd which had assembled in the auditorium that Col. Roosevelt had been shot. He asked the people to be calm.

Calmed the Crowd.

The crowd was thrown almost into a panic by the announcement. Col. Roosevelt calmed the people by rising and assuring them that he was not severely hurt. Then he began his address.

Several times he seemed to be growing weak and members of his party rose to help him. He motioned them to sit down.

"Let me alone. I'm all right," he said.

Capt. A. O. Girard of Milwaukee was at the colonel's side when the shot was fired. He jumped almost at the same time, and in an instant the man was overpowered and disarmed.

Col. Roosevelt spoke to the people and told them to spare the assassin. The man was taken into the hotel and held there until he was removed to the police station.

The prisoner told the police after an hour's examination that he was John Schrank of 370 East Tenth street, New York.

Col. Roosevelt completed his speech at 9:45 o'clock and was taken to the emergency hospital.

The X-ray of Col. Roosevelt's wound shows that the bullet lodged in the chest wall and did not penetrate the lungs.

Col. Roosevelt left the hospital at 11:25 p. m. He was able to walk unassisted. "I am feeling fine," he said. He left for Chicago before midnight on a special train.

Manuscript Saved Him.

Col. Roosevelt's life probably was saved by a manuscript of the speech. The bullet struck the manuscript. (Continued on Page 4)

CITY GETS PLANT

WATER COMPANY ACCEPTS OFFER MADE BY CITY.

BONDS WILL BE ISSUED

And the Water Plant Will Be Taken Over at Once—Improvements to Be Made This Fall.

The offer of the city of \$50,000 for the local water plant has been accepted by the water company, as is shown by the following telegram received today by Manager C. B. Roseberry:

Notify parties proposition accepted. Will mail written acceptance Thursday.—Harkless & Histed.

The offer was made a week or so ago by the city, after a conference held between the board of public works members and the city council with Mr. Harkless, the attorney of the company. The amount, \$50,000, is for the entire plant and for the interest of the water company in the Robinson and Bellows extension.

The proposition to buy the water plant has been up ever since Maryville voted the \$100,000 bond issue for a municipal water plant in September 1911. The board of public works has been dealing with the water company and the first price named was \$69,000. But finally the water company came down to \$54,425, after two engineers hired by the board of public works had valued the plant worth something like \$40,000. The opinion seems to be that the board bought the plant at a reasonable figure. They at least paid \$5,000 going value for the plant, is the belief of many.

The first step to be taken, since the city's proposition has been accepted, will be to ratify the terms and then the council will probably meet on Thursday or Friday night, or as soon as the written acceptance is received. At this meeting arrangements will be made to go ahead with the issuing of the bonds for \$100,000, and as soon as they are issued and registered they will be sold.

The board of public works will then take over the plant as soon as the purchase price is paid. Some new improvements will be made this fall, and the board has many other plans for the plant.

The people it is believed, are glad that the plant has been bought and that Maryville's municipal water plant will soon be a thing of reality. The board of public works deserved great praise for their work in handling the negotiations with the water company.

The children's choir of forty or more voices is doing wonderful work, and their singing is remarkable for its sweetness and inspiration.

Primary Sunday School Party.

The prettiest social affair that has been given at the First M. E. church for some time was the party given Saturday afternoon in the church parlors by the officers and teachers of the primary department of the Sunday school to the members of the school and their mothers. After all had been greeted and seated by the hostesses all the children sang their

"Good Morning Song" to their mothers, and then presented the following program for their special pleasure and benefit: They formed in line for their march to the collection basket, and to music marched around and dropped their pennies in the basket, and afterward sang "Jesus Bids Us Shine."

Then the little cradle roll children of the department, all under 3 years old, sang their cradle roll song welcoming Alice May Smith, the 5-months-old daughter of Mr. and Mrs. Wilber C. Smith, to their membership. Alice May was present with her mother, but of course was not quite old enough to feel the dignity of her position. Perhaps it will be of interest to many to know how a cradle roll member is received. Well, the name of the baby is written on a slip of paper and placed in a tiny white cradle that is fixed up as nice as though a real baby was going to be put into it, and then some little friend of the family of the new cradle roll member rocks the cradle while they all sing the welcoming song. Master Robert Westfall rocked the cradle this time.

After this little ceremony the flag salute was given by the primary department. A piano number was given by Miss Laura Curfman, and then the very happy song of the graduating class. The members are all now 10 years old, which entitles them to enter the "big Sunday school." The teacher of this class was Miss Mae Hotchkiss, and the members were Madelyn Strawn, Anita Hill, Helen Dragoo, Iva Hartness, Allena Holloway, Mary Edmonston, Mildred Grundy, Anice Garten, Lela Gibson, Helen Curfman, Inez Moore, Margaret Remus, Mary Irwin, Mary Martin.

A piano duet was given by Misses Helen and Laura Curfman and a piano solo, "Sextet from Lucia," by Ernest Moore. This was followed by recitations by these little people: Lucile Gaugh, Pauline Nichols, Gertrude Curfman, Virginia Belle Dean, Frances Remus, Louise Combs, Nona Willett, Lois Hartman, Helen Kemp, Mary Edmonston, Mamie Borchers, Nina Blanche Jones, Maude McIntyre, Catherine Remus, Mabel Hill.

The guests had a most delightful time after the program and the hostesses served a very palatable luncheon. The mothers say they are more appreciative than ever of the work the officers and teachers are accomplishing with the little ones and the two forces, home and primary departments, are drawn closer together through the social contact of Saturday afternoon.

Here are the names of the officers, teachers and pupils of the primary department: Miss N. Elizabeth Evans, superintendent; Miss Mary Q. Evans, assistant superintendent; Miss Laura Curfman, secretary; Mrs. John Herron, mother.

Class 1—Anna Bartram, teacher; Ruth Martin, Mary Neal, Lois Brown, Nona Willett, Gladys Dragoo, Ervella Belcher, Getha Anderson, Lois Hartman, Merle Ford, Mattie Price, Helen Kemp.

Did you ever stop to analyze soft coal?

The average soft coal contains 44 per cent gas, 39 per cent fixed carbon, making 83 per cent available heat producing elements. Now the important thing to consider in buying a heater is to get one that will consume the greatest amount of this 44 per cent of gas, for this is the most important part of its heat producing qualities.

Now, this is just what the New Round Oak Double Hot Blast will do for you. The gas is the first element heat releases in soft coal and with this new feature of the Round Oak Heater we are able to consume the greater portion of this 44 per cent of gas, and in so doing are able to heat more space with less fuel than any other heater on the market. ALL YOU NEED IS A CASCARET TONIGHT

No Sick Headache, Bilious Stomach,
Coated Tongue or Constipated
Bowels by Morning.

Turn the rascals out—the headache, the biliousness, the indigestion, the sick, sour stomach and foul gases—turn them out tonight and keep them out with Cascarets.

Millions of men and women take a Cascaret now and then and never know the misery caused by a lazy liver, clogged bowels or an upset stomach.

Don't put in another day of distress. Let Cascarets cleanse and regulate your stomach; remove the sour, undigested and fermenting food and that misery-making gas; take the excess bile from your liver and carry out of the system all the constipated waste matter and poison in the intestines and bowels. Then you will feel great.

A Cascaret tonight will surely straighten you out by morning. They work while you sleep. A 10-cent box from any drug store means a clear head, sweet stomach and clean, healthy liver and bowel action for months. Children love to take Cascarets because they taste good—never gripe or sicken.—Adv.

Oh, How I Itched!

What long nerve-racking days of constant torture—what sleepless nights of terrible agony—itch—itch—itch, constant itch, until it seemed that I must tear off my very skin—then—

Instant relief—my skin cooled, soothed and healed!

The very first drops of D.D.D. Prescription for Eczema stopped that awful itch instantly; yes, the very moment D.D.D. touched the burning skin the torture ceased. A 25c bottle proves it.

D.D.D. has been known for years as the only absolutely reliable eczema remedy, for it washes away the disease germs and leaves the skin as clear and healthy as that of a child.

All other druggists have D.D.D. Prescription—go to them if you can't come to us—but don't accept some big profit substitute.

But if you come to our store, we are so certain of what D.D.D. will do for you that we offer you a full size bottle on this guarantee:—If you do not find that it takes away the itch AT ONCE, it costs you not a cent.

POSSE DRIVEN TO COVER BY YOUTH

Eighteen-Year-Old Boy Held Twenty-Five Men at Bay.

YOUNGER BROTHER SURRENDERS

Two Boys Had Stolen Entire Stock of Arms and Ammunition From Hardware Store—Stood Siege in a Cave.

Greenbay, Wis., Oct. 15.—After holding a posse of 25 officers and citizens at bay at Big Bend on the Wolf river, four miles north of Shawano, Arthur Drier, 16 years old, surrendered and was placed under arrest.

His brother, Calvin Drier, 18 years old, continued to resist arrest by using fire arms which the boys had stolen from a hardware store in Shawano last Saturday evening.

The boys were arrested several days ago for breaking into the same store and were out on bonds when they again entered the store and carried away the entire stock of firearms and ammunition.

They were pursued by the chief of police, but succeeded in escaping by taking a horse from a nearby barn.

Escaped in Darkness.

They entered a cave on Kenosha road, where they fired a number of shots at the chief of police, and managed to escape under the cover of darkness. The police later discovered that the boys had taken refuge at Big Bend.

When a posse attempted to capture them their members were driven back by a volley of shots from the brothers' rifles.

After his surrender Arthur Drier is said to have confessed to the burglary and to have revealed the hiding place of most of the plunder. Fifty rifles and 3,000 rounds of ammunition were recovered.

The posse is guarding the hiding place of the other boy and expect to capture him in the morning.

SET THIRTY-CENT LIMIT ON EGGS

Cleveland, Ohio, Headquarters of Movement to Help Cut Down Cost of Living.

Cleveland, Oct. 15.—"No eggs for three weeks," is the battle cry of about 40,000 boycotters in Cleveland and North Ohio, who entered upon a campaign of abstention in the hope of lowering the price.

Strictly fresh eggs are quoted here at 43 cents a dozen. Thirty cents a dozen is the limit the boycotters have set, and they say they won't buy unless the price scales off to that point.

Frank S. Krause is president of the "30 cent egg club," which for two years has registered an effective boycott protest against sky prices on the hen product. He says the club has 20,000 members and at least that many more sympathizers who will join in abstaining from eggs.

CHURCH TO TRY SALOON METHOD

Joliet Pastor to Have Leased Wire and Give Election Returns on Night of November 5.

Joliet, Ill., Oct. 15.—The Rev. George Macadam, pastor of a Methodist church here, purposes to give those who wish to take advantage of his plan the returns of the election the night of November 5, surrounded by influences vastly different and more elevating than those found in the saloon.

He will have a leased wire run into his church and get the returns direct. Mr. Macadam arranged the affair in opposition to the saloons, which he said would be open on election night offering election news as an attraction for patronage.

Jointist a Poor Guesser.

Columbus, Kan., Oct. 15.—While W. P. Montgomery and Jerry Johnston are making a special law enforcement campaign in Crawford county appealed to Dick Bart as a good time to embark in the joint business in Cherokee county. He opened a joint in Skidmore. Next day County Attorney Strother heard of it, he was arrested, pleaded guilty and was immediately sent to jail.

Singer Buys Dakota Farm.

Grand Forks, N. D., Oct. 15.—Mme. Shumann-Heink has invested \$12,240 in 170 acres of land lying seven miles north of Grand Forks, which she will improve by the construction of a cottage and the laying out of gardens, expecting to make her home there two or three months of each summer. The farm lies on the banks of the Red River of the North, that stream forming the eastern boundary line. Part of the farm is heavily wooded.

Kimmel Trial on Again.

St. Louis, Oct. 15.—For the fourth time a trial was started to prove the death of George A. Kimmel. The suit against a New York insurance company to collect \$14,000 in policies and benefits is prosecuted by Mrs. Edna K. Bonsett of Chicago, a sister of Kimmel.

KANSAS BALLOT TO BE SIMPLE

CANDIDATE'S NAMES WILL APPEAR ABOVE ELECTORS.

Action Taken by Attorney General To Make Selection Easier for Voters.

Topeka, Oct. 15.—The Roosevelt presidential electors on the general election ballot in Kansas will be definitely designated by having the names of Roosevelt and Johnson appear at the head of the list. Charles Sessions, secretary of state, and John S. Dawson, attorney general, held that the names of the Progressive candidates for president and vice-president should appear over their own electors as does the names of Taft and Sherman over their electors and Wilson and Marshall over the Democratic electors.

The Roosevelt electors appear in the fourth column of the ballot. At the top appears the word "Independent" and just below it will appear the names of Roosevelt and Johnson and following these comes the list of ten presidential electors, headed by Henry Allen and ending with W. A. White.

The action of the attorney general and secretary of state was taken in the interests of liberality in balloting and to aid the voter in expressing his choice for president and vice-president, to keep the voter from making mistakes in his ballot. The voters, however, must make a cross mark in the square at the right of each Roosevelt elector if he wishes to vote for all of them, as he cannot vote in the circle for Roosevelt, as can be done for Taft, Wilson or Debs. On account of the law in Kansas a new party must be organized 120 days before the primary, and the Progressive party was not organized until the day of the primary in Kansas.

BECKER CASE WITNESS ESCAPED

District Attorney Will Insist on Explanation of Circumstances Which Made Escape Possible.

New York, Oct. 15.—Three prisoners escaped from the house of detention on Mulberry street during the night, scaling a spiked brick wall, 20 feet high. The three men were held as witnesses, one of them known to the police as Max Kahn, being an important witness in the Becker case. Kahn was found in the company of "Gyp the Blood" and "Lefty Louie," alleged assassins of Rosenthal when they were arrested in a Brooklyn flat. The district attorney's office will make a searching investigation of the circumstances of his escape.

Politics Delays Capitol Plans.

Jefferson City, Oct. 15.—The political campaign interfered for a second time with a meeting of the commissioners of the permanent seat of government to take action in the matter of the plans for the new state capitol. Only Gov. Hadley and the secretary of state, Cornelius Roach, were in the city. Attorney General Major and Auditor Gordon are looking after the campaign, and Treasurer Sawgill is out of the city. Gov. Hadley called another meeting of the board for next Monday.

Brings Blond Eskimo Curious.

Seattle, Wash., Oct. 15.—Forty-one cases of curios and relics gathered by Dr. Vilhjalm Stefansson, the Arctic explorer, who discovered a race of blond Eskimos in Victoria Land, were unloaded from the schooner Transit, which brought them down from Point Barrow, Alaska, and are being prepared for shipment to New York, where they will be placed in the American Museum of Natural History.

Bars "Rag" Dances.

Chicago, Oct. 15.—Seventy-two dancing masters, operating as many dance halls, voted to eliminate the "ragtime" dance and its accompanying music from their places of entertainment at a meeting just held. A motion that only the waltz and two-step be allowed hereafter was carried unanimously.

TURKEY REFUSES OFFER OF POWERS

Day's Events Indicate General Outbreak is Inevitable.

MINISTERS PREPARE TO LEAVE

Representatives of Serbia, Greece and Bulgaria Receive Instructions From Home—300,000 Serbians to Frontier.

London, Oct. 15.—Turkey has taken up the gauntlet thrown down by the Balkan states, and events in the near East crowded close upon one another to hasten what is believed to be the inevitable general outbreak.

The sultan's government formally declined the proffered interference in its proposed introduction of reforms into Macedonia and coincidentally assumed the offensive itself, invading Serbia.

Serbia's representative at Constantinople, together with those of Greece and Bulgaria, received notification from the home government to prepare to leave on a moment's notice.

The participation of Greece in the conflict was almost assured by the Athens government's deliverance of an ultimatum demanding the release of Greek ships seized at Constantinople. Fought All Day.

Belgrade, Serbia, Oct. 15.—Fighting went on throughout the day along the frontier. The reports of cannon firing could be heard at Vranja coming from the direction of Ristovatz and Vilagoske.

The Turkish force which crossed the border is backed by a force estimated at 80,000. The Serbian force along the frontier is 150,000. The situation is so serious that the Serbian commander-in-chief, Gen. Radomir Putnik, is leaving for the front.

Serbia has 300,000 men under arms, making for the Turkish frontier. The king's two brothers, Princes Arsene and Alexie, the crown prince Alexander and Prince George, the king's two sons, are also leaving for the front.

No Interference Wanted.

Constantinople, Oct. 15.—The Turkish government declines to allow the powers to intervene in the question of Macedonian reforms.

Its reply to the representatives of the powers was handed to the Austro-Hungarian ambassador here early in the morning. While thanking the European powers for their friendly interest in the Balkan situation the Ottoman government is determined not to tolerate any foreign interference.

TO CELEBRATE OVER KAFIR CORN

El Dorado Expects Over 30,000 Visitors at Carnival—Work Begun on Decorations.

El Dorado, Kan., Oct. 15.—In celebration of the largest crop of Kafir corn ever raised in Butler county, the second annual Kafir corn carnival will be held in El Dorado October 16 to 18. Butler county's first carnival, last October, was attended by 30,000 persons in three days. The acreage of Kafir in Butler county this year has increased to 120,000 acres, maintaining it as the greatest Kafir producing county in America.

Committees from the 29 townships of the county are already here decorating their booths on "Kafir Pike." A premium of \$100 will be given the best decorated booth, \$75 to the second, \$50 to the third, \$25 to the fourth and \$15 to the fifth. In all about \$1,000 in premiums will be awarded at the fair.

CITY MAY ASSUME INSURANCE

Minneapolis Considering Plan to Carry Its Own Risks on Municipal Buildings.

Minneapolis, Minn., Oct. 15.—Alderman John Peterson has introduced in the common council a resolution which provides that the city itself carry the fire risks on all public buildings, and it is understood that many councilmen approve it. Mr. Peterson reports that in the last ten years the city has paid \$100,000 in insurance premiums, and the city has sustained fire losses aggregating \$45,000.

Club Women of Ohio Meet.

Athens, O., Oct. 15.—The seventeenth annual convention of the Ohio Federation of Women's Clubs opened this morning in the Methodist church, the first session being devoted to addresses of welcome, the annual address of the president, Mrs. Howard Hucks of Oberlin, and the transaction of business. The attendance is large and the program for the four days provides for the discussion of many of the important topics of the times.

Stole a Locomotive.

Wichita, Kan., Oct. 15.—A Santa Fe engine was stolen from the railroad's roundhouse early in the morning by James Trenary and T. L. Jacques discharged employees, to satisfy a grudge. The engine was driven a mile west of Cheney where the men were compelled to abandon it because of a dry water tank. Sheriff Milhaub and Deputy Sheriff Sullentrop recovered the engine.

WOUND IS SERIOUS

(Continued from Page 1)

which retarded its force as it passed through into the flesh.

The assassin was prevented from firing a second shot by Albert H. Martin, one of Col. Roosevelt's two secretaries.

As the party reached the motor car Col. Roosevelt's companions stood aside and he stepped into the machine.

Martin entered directly behind him and sat on the farther side of the car. Col. Roosevelt stood up, waving his hat in answer to the cheers of the crowd.

The assassin was standing in the crowd a few feet from the machine.

Fired While Near the Car.

He pushed his way to the side of the car, and raising his gun, fired.

Martin caught the flash of the revolver as the shot was fired and leaped over the car a second after the shot.

Roosevelt barely moved as the shot was fired. Before the crowd knew what had happened, Martin, who is six feet tall and a former football player, had landed squarely on the assassin's shoulders and had borne him to the ground.

He threw his right arm about the man's neck with a deathlike grip.

With his left arm Martin seized the hand that held the revolver. In another second he had disarmed the man.

Col. Roosevelt stood calmly looking on, as though nothing had happened.

DAIRY

QUALITIES OF THE AYRSHIRE

Animal is Quite Intelligent, Quick to Learn and of Retentive Memory

—Easy to Milk.

The general appearance of an Ayrshire, as you look at her, is striking, being alert and full of life and reserved energy. She is a healthy cow, rarely having ailments of body and udder, and you seldom see an Ayrshire cow but that has four healthy quarters in her udder and gives a uniform quantity of milk from each. She is a very persistent milker, giving a uniform quality well up toward calving, and many of them are dried off with difficulty.

She is very intelligent, quick to learn and of a retentive memory, easily taught to take the same place in the stable and, if required to change, will in a few days readily take the new place. She is quiet and pleasant to milk, not easily disturbed, and will as a rule yield her milk as readily to one milker as to another, and does not seem disturbed by any amount of noise in the stable.

As a dairy cow she is particularly adapted to the production of milk for the milkman and for table use, as her medium size, vigorous appetite and easy keeping qualities make her an economical producer, while her even, uniform production makes her a reliable supply, and the richness of her milk in total solids places it above suspicion from city milk inspectors.

Her milk is particularly adapted to transportation, as it does not curdle or sour easily, and when poured back and forth a few times will readily mix the cream back into the milk, which will not again readily separate, giving it a uniform quality until the last is sold or used. It has a good body, is rich looking and never looks blue. The milk itself being easily balanced with casein and butter fat, is a complete food, easily digested, nutritious, and is particularly adapted to children and invalids. Stomachs that are weak and unable to direct other milk find no trouble with Ayrshire cow's milk.

EUROPEAN TRIP A RELIEF FROM CARE

For years the Browns had planned a European trip, but every year something happened to prevent their getting away. First the children were ill and then Mrs. Brown invited guests for a short time, who stayed several months, preventing the Browns, by the dwindling of the bank account, from going abroad that year. Thus things went on.

Finally Brown declared as an absolute certainty that Europe would see them the following year. All their friends were notified and everything was done to make it impossible for their trip to be prevented.

When all was ready, however, Brown was ordered by his firm to secure a particularly desirable contract at any cost. It meant a lot to the firm and to Brown, but it also meant months of untiring effort—effort that could not be put forth in Europe.

Brown, however, had made his vow and he refused to let his business interfere with his family's plans. The family could go to Europe even if he couldn't. They had relatives abroad, and, besides, he could send them with a party. So he packed them on the train and looked as cheerful as possible when it pulled out.

When he returned home, however, he began to realize how lonesome it was there. It got on his nerves finally and he resolved to board during his bachelorhood. So he moved to a hotel.

Then the thought came to him to rent his house for the months that it would be vacant unless he rented it. There was no earthly use in letting it stand and gather dust, which was the same as throwing away a goodly sum of money each month. Some one would be only too glad of the opportunity to live in a well furnished house in a fashionable suburb, with all the benefits of the Browns' home comforts. Some one, no doubt, was searching eagerly for such an opportunity. So Brown hastened to advertise the treat in store for some one.

The number of replies he received was highly gratifying to him. After picking out the letter written on the best appearing stationery he clinched the bargain over the telephone. Of course, the tenants refused to pay nearly what he thought his house was worth, but on reflection he concluded that they were really caretakers for him who would look after his property generally. He even began to feel under obligations to them for their willingness to take his house and he urged them to make themselves perfectly at home, assuring them that everything in the house was theirs to use as they desired.

When he hung up the receiver he heaved a sigh of relief and content. He needn't even think of the house again until his family were about to return. It was really a great idea of his to have some one take care of the property for him; now he could devote his entire time to the task of getting that important contract.

It was about a week later that over the telephone he listened to a very indignant feminine voice commanding his immediate presence at his home. Fearing no less calamity than a fire, Brown hastened to catch the first train to the familiar suburb.

"What's the matter?" he asked of the woman who opened the door after he had established his identity.

"Why," she replied, without inviting him in, "I wanted to ask you where I can find the potato knife and the carving set. And when you rented us this place you gave us to understand that it was completely furnished! Well, ever since we moved in we've been unable to find things we ought to have! There are no oyster forks nor individual butter knives! And the table linen is a disgrace—we could never invite guests to dine with us with such linen!"

"And the water froze the first night we were here, so we had to have a plumber, and that was \$7. He says your drains are in a terribly insanitary condition, and if we get typhoid we shall certainly charge our doctor bills to you! You've no business advertising a perfect home—it's getting money under false pretenses!"

"We've had to buy lots of little things. Your brooms are dreadful, and some of your kitchen utensils were absolutely worn out. We'll just take the cost out of the rent—for, of course, the things will belong to the house."

Brown had ceased to listen. He was contemplating the gown worn by his tenant—a dainty house dress of Mrs. Brown's. His wife had left much of her wardrobe at home, he knew. In the doorway, to receive the first footprints of the incomers, was the Browns' most valuable rug, treasured as very gold! He wondered what might lie beyond his vision!

He stuttered helplessly, trying to express his dissatisfaction, but the glare of righteous indignation in his tenant's eyes rendered him inarticulate.

"All the rent for the first month is already paid out," said the woman. "When the plumber's bill comes in shall we send it to you, or shall we pay it out of next month's rent?"

"There—there won't be another month!" exploded Brown, turning on his heel to prevent himself from making further unseemly remarks. But as he stamped along the street he recalled that the objectionable occupants of his home had a lease to fortify them against his wrath.—Chicago Daily News.

HOW ONE WOMAN WON

Her Health and Strength Back Again by The Use of Cardui.

Tampa, Fla.—In a letter from this city, Mrs. E. C. Corum writes: "I was all weakened and worn out with womanly troubles. My husband brought me some Cardui as a tonic, and, from the first day, it seemed to help."

I had almost lost my reason, but, thanks to Cardui, I did not. Soon, I felt and looked like a new woman. I think the remedy is wonderful. I recommend it to my friends, for I have received great benefit from it."

Cardui acts specifically on the weakened womanly organs, strengthening the muscles and nerves, and building them up to health.

It helps to refresh the worn-out nervous system and relieves the effects of overwork, both mental and physical. Fifty years' successful use fully prove the merit of this purely vegetable, tonic remedy for women.

In every community, there live some who have been benefited by Cardui.

The beneficial effects of this time tested woman's remedy, soon show themselves in many different ways. Try it.

VOLUME 3.

MARYVILLE, MISSOURI, TUESDAY, OCT. 15, 1912.

NO. 115.

THE WORK TO BEGIN

MAINS FOR NEW HEATING SYSTEM TO BE LAID AT ONCE.

WORK TO START MONDAY

Radiators for Business Houses Will Be Put in by Plumbers and Mains Will Be Laid by Company.

Work will commence next Monday on the new heating system to be installed here by the Maryville Electric Light and Power company. Manager Hellmuth of the company expects a man here in a day or so who will have charge of the work, and then the mains will be put in the streets in the business section of the city.

The plumbers will have charge of putting in the radiators in the business houses that have agreed to take the heat. The radiators are here and all the material and machinery for the light company have been shipped and will be here by the last of the week.

The work has been delayed, owing to labor troubles back east, and also to the shortage of freight cars. However, Manager Hellmuth believes that the mains will be laid in two or three weeks if enough help is secured. Heat will then be given about the first week of November.

The conduits or mains are to be put in from the light plant to Main street along Fifth, and then on Main to the opera house block. From Main it will go on Fourth street to Market, and also on Third to Buchanan. Permission has been granted to the company by the city for the use of the streets with the understanding that the streets will be put back in good condition.

Many more schools made exhibits, the competition was closer, and the work shown was better than ever before."

FOUND DEAD AT HOME.

Mrs. Fred Jacobs, an Invalid, Died While Husband Was at Work.

Mrs. Fred Jacobs of this city was found dead in her home on West Eleventh street Tuesday forenoon at 11 o'clock. Her husband, who is a carpenter of this city, was employed at his work out in the country some nine miles, and Mrs. Jacobs, who had been feeling badly for several weeks, was visited by her neighbors regularly and given little attentions that an invalid would appreciate.

Mrs. Jacobs was subject to severe weak spells, due to a weak heart, and her friends have feared that death would come to her suddenly. On Tuesday morning several of her neighbors noticed that the window shades were drawn as at night, and upon speaking of it to one another it was found that none of them had seen her about the house that morning. Three of the neighbors, Mrs. George Workman, Mrs. E. W. Friend and Mrs. Henry Trullinger, then went to the Jacobs home and forced open the door. They found Mrs. Jacobs lying in bed as though asleep, but she did not answer their call, and when they reached her bedside they saw that she was dead. The bed clothes were not disturbed and there was no sign of pain on the woman's face. Death came during sleep, probably soon after she had retired, for the body was quite cold.

Mr. Jacobs was notified at once and was brought to Maryville in a car. Mrs. Jacobs' sister, Mrs. Madison Goodson of Ravenwood, was also notified, and was soon in Maryville.

Dr. J. H. Todd, the coroner, had not returned from a professional visit to the country at 2:30 o'clock, and it is not known if he will hold an inquest.

Mrs. Jacobs had been in poor health for a good many years, and the suddenness of her death is not a great surprise to those who knew her. She had no children.

WOUND IS SERIOUS

REPORTS OF ROOSEVELT SHOOTING UNDERESTIMATED DANGER.

HE IS A VERY SICK MAN

At Mercy Hospital in Chicago and His Physicians Say He Requires Absolute Quiet.

A dispatch from Chicago late this afternoon stated that Theodore Roosevelt, who was shot at Milwaukee, Wis., Monday night, was in a more serious condition than at first thought. After a second examination made by the physicians this afternoon a statement was issued by them saying that the wound was more than a flesh wound and was a deep and serious one. The statement went on to say that Mr. Roosevelt must not talk and must not be disturbed, as he is a very sick man. The physicians reported that it pained Mr. Roosevelt to breathe. It will be necessary for him to have absolute quiet for some time.

Mr. Roosevelt arrived at Chicago about 5:30 o'clock Tuesday morning and was taken to the Mercy hospital. He ate a hearty breakfast and chatted with many friends. The first examination was made this morning by the physicians, and it was stated that the wound was a flesh one and that an operation would have to be performed.

Milwaukee, Oct. 15.—Col. Theodore Roosevelt was shot and wounded as he was leaving the Gilpatrick hotel for the Auditorium to make a speech.

The wound did not prevent the ex-president from making his speech. He insisted the wound was superficial and went on to the hall after he had seen the assassin arrested.

One of Roosevelt's campaign aids seized the assassin and held him until policemen came up.

The assassin, who is small of stature, admitted firing the shot, and said that "any man looking for a third term ought to be shot."

In notes found in the man's pockets at the police station were statements that the man had been visited in a dream by the spirit of William McKinley, who had said, indicating Col. Roosevelt:

"This is my murderer, avenge my death."

"I'll Make This Speech or Die."

The colonel felt no pain at the time the shot was fired. He was not aware that the shot had taken effect until he was on the way to the Auditorium.

His attention was then called to a hole in his overcoat, and he found that his shirt was soaked with blood. He insisted that he was not hurt badly. A superficial examination of the wound was made when he reached the Auditorium and three physicians agreed that he was in no immediate grave danger.

In spite of the entreaties of physicians, Col. Roosevelt insisted upon delivering his address.

"I'll make this speech or die, one or the other," he said.

Henry F. Cochems told the great crowd which had assembled in the auditorium that Col. Roosevelt had been shot. He asked the people to be calm.

Calmed the Crowd.

The crowd was thrown almost into a panic by the announcement. Col. Roosevelt calmed the people by rising and assuring them that he was not severely hurt. Then he began his address.

Several times he seemed to be growing weak and members of his party rose to help him. He motioned them to sit down.

"Let me alone. I'm all right," he said.

Capt. A. O. Girard of Milwaukee was at the colonel's side when the shot was fired. He jumped almost at the same time, and in an instant the man was overpowered and disarmed.

Col. Roosevelt spoke to the people and told them to spare the assassin.

The man was taken into the hotel and held there until he was removed to the police station.

The prisoner told the police after an hour's examination that he was John Schrank of 370 East Tenth street, New York.

Col. Roosevelt completed his speech at 9:45 o'clock and was taken to the emergency hospital.

The X-ray of Col. Roosevelt's wound shows that the bullet lodged in the chest wall and did not penetrate the lungs.

Col. Roosevelt left the hospital at 11:25 p. m. He was able to walk unassisted. "I am feeling fine," he said.

He left for Chicago before midnight on a special train.

Manuscript Saved Him.

Col. Roosevelt's life probably was saved by a manuscript of the speech. The bullet struck the manuscript. (Continued on Page 4)

CITY GETS PLANT

WATER COMPANY ACCEPTS OFFER MADE BY CITY.

BONDS WILL BE ISSUED

And the Water Plant Will Be Taken Over at Once—Improvements to Be Made This Fall.

The offer of the city of \$50,000 for the local water plant has been accepted by the water company, as is shown by the following telegram received today by Manager C. B. Roseberry:

Notify parties proposition accepted. Will mail written acceptance Thursday—Harkless & Histed.

The offer was made a week or so ago by the city, after a conference held between the board of public works members and the city council with Mr. Harkless, the attorney of the company. The amount, \$50,000, is for the entire plant and for the interest of the water company in the Robinson and Bellows extension.

The proposition to buy the water plant has been up ever since Maryville voted the \$100,000 bond issue for a municipal water plant in September 1911. The board of public works has been dealing with the water company and the first price named was \$69,000. But finally the water company came down to \$54,425, after two engineers hired by the board of public works had valued the plant worth something like \$40,000. The opinion seems to be that the board bought the plant at a reasonable figure. They at least paid \$5,000 going value for the plant, is the belief of many.

The first step to be taken, since the city's proposition has been accepted, will be to ratify the terms and then the council will probably meet on Thursday or Friday night, or as soon as the written acceptance is received. At this meeting arrangements will be made to go ahead with the issuing of the bonds for \$100,000, and as soon as they are issued and registered they will be sold.

The board of public works will then take over the plant as soon as the purchase price is paid. Some new improvements will be made this fall, and the board has many other plans for the plant.

The people it is believed, are glad that the plant has been bought and that Maryville's municipal water plant will soon be a thing of reality. The board of public works deserved great praise for their work in handling the negotiations with the water company.

HAVING GOOD MEETINGS.

Evangelist Hankins at Ravenwood Bids Fair to Have as Successful Meeting as at Other Places.

Evangelist Hankins is speaking to crowded houses at the M. E. church in Ravenwood each night, and Sunday's services were very large. The music is a special feature and is as spiritual as the prayer or preaching service. The children's choir of forty or more voices is doing wonderful work, and their singing is remarkable for its sweetness and inspiration.

E. and the South Methodist, the Young People's club of the First Presbyterian, the B. Y. P. U. of the Baptist, and the Christian Endeavor society of the Christian church. They will all have a part on the program.

These meetings will probably be held from time to time during the year, and at the meeting Sunday evening, a permanent organization will be formed. The plan was suggested by the late Dr. J. S. Ford in his last sermon.

The subject for the evening Sunday will be "Christian Sociability." The meeting will be dismissed in time so the young people can attend their regular church services.

Primary Sunday School Party.

The prettiest social affair that has been given at the First M. E. church for some time was the party given Saturday afternoon in the church parlors by the officers and teachers of the primary department of the Sunday school to the members of the school and their mothers. After all had been greeted and seated by the hostesses all the children sang their

"Good Morning Song" to their mothers, and then presented the following program for their special pleasure and benefit: They formed in line for their march to the collection basket, and to music marched around and dropped their pennies in the basket, and afterward sang "Jesus Bids Us Shine."

Then the little cradle roll children of the department, all under 3 years old, sang their cradle roll song welcoming Alice May Smith, the 5-months-old daughter of Mr. and Mrs. Wilber C. Smith, to their membership. Alice May was present with her mother, but of course was not quite old enough to feel the dignity of her position. Perhaps it will be of interest to many to know how a cradle roll member is received. Well, the name of the baby is written on a slip of paper and placed in a tiny white cradle that is fixed up as nice as though a real baby was going to be put into it, and then some little friend of the family of the new cradle roll member rocks the cradle while they all sing the welcoming song. Master Robert Westfall rocked the cradle this time. After this little ceremony the flag salute was given by the primary department. A piano number was given by Miss Laura Curfman, and then the very happy song of the graduating class. The members are all now 10 years old, which entitles them to enter the "big Sunday school." The teacher of this class was Miss Mae Hotchkiss, and the members were Madalyn Strawn, Anita Hill, Helen Drago, Iva Hartness, Allena Holway, Mary Edmonston, Mildred Grundy, Anice Garten, Lela Gibson, Helen Curfman, Inez Moore, Margaret Remus, Mary Irwin, Mary Martin.

A piano duet was given by Misses Helen and Laura Curfman and a piano solo, "Sextet from Lucia," by Ernest Moore. This was followed by recitations by these little people: Lucile Gaugh, Pauline Nichols, Gertrude Curfman, Virginia Belle Dean, Frances Remus, Louise Combs, Nona Willett, Lois Hartman, Helen Kemp, Mary Edmonston, Mamie Borchers, Nina Blanche Jones, Maude McIntyre, Catherine Remus, Mabel Hill.

The guests had a most delightful time after the program and the hostesses served a very palatable luncheon. The mothers say they are more appreciative than ever of the work the officers and teachers are accomplishing with the little ones and the two forces, home and primary departments, are drawn closer together through the social contact of Saturday afternoon.

Here are the names of the officers, teachers and pupils of the primary department:

Round Oak Double Hot Blast HEATERS

Did you ever stop to analyze soft coal?

The average soft coal contains 44 per cent gas, 39 per cent fixed carbon, making 83 per cent available heat producing elements. Now the important thing to consider in buying a heater is to get one that will consume the greatest amount of this 44 per cent of gas, for this is the most important part of its heat producing qualities.

Now, this is just what the New Round Oak Double Hot blast will do for you. The gas is the first element heat releases in soft coal and with this new feature of the Round Oak Heater we are able to consume the greater portion of this 44 per cent of gas, and in so doing are able to heat more space with less fuel than any other heater on the market. Let us show you why.

Our line of Heaters is complete and we can please the buyer with a limited purse or suit the buyer with the best to be obtained.

ALL YOU NEED IS A CASCARET TONIGHT

No Sick Headache, Bilious Stomach, Coated Tongue or Constipated Bowels by Morning.

Turn the rascals out—the headache, the biliousness, the indigestion, the sick, sour stomach and foul gases—turn them out tonight and keep them out with Cascarets.

Millions of men and women take a Cascaret now and then and never know the misery caused by a lazy liver, clogged bowels or an upset stomach.

Don't put in another day of distress. Let Cascarets cleanse and regulate your stomach; remove the sour, undigested and fermenting food and that misery-making gas; take the excess bile from your liver and carry out of the system all the constipated waste matter and poison in the intestines and bowels. Then you will feel great.

A Cascaret tonight will surely straighten you out by morning. They work while you sleep. A 10-cent box from any drug store means a clear head, sweet stomach and clean, healthy liver and bowel action for months. Children love to take Cascarets because they taste good—never gripe or sicken.—Adv.

Oh, How I Itched!

What long nerve-racking days of constant torture—what sleepless nights of terrible agony—itch—itch—itch, constant itch, until it seemed that I must tear off my very skin—then— instant relief—my skin cooled, soothed and healed! The very first drops of D.D.D. Prescription for Eczema stopped that awful itch instantly; yes, the very moment D.D.D. touched the burning skin the torture ceased. A 25c bottle proves it. D.D.D. has been known for years as the only absolutely reliable eczema remedy, for it washes away the disease germs and leaves the skin as clear and healthy as that of a child. All other druggists have D.D.D. Prescription—go to them if you can't come to us—but don't accept some big profit substitute. But if you come to our store, we are so certain of what D.D.D. will do for you that we offer you a full size bottle on this guarantee:—If you do not find that it takes away the itch AT ONCE, it costs you not a cent. J. C. Ferritor, Druggist.

POSSE DRIVEN TO COVER BY YOUTH

Eighteen-Year-Old Boy Held Twenty-Five Men at Bay.

YOUNGER BROTHER SURRENDERS

Two Boys Had Stolen Entire Stock of Arms and Ammunition From Hardware Store—Stood Siege in a Cave.

Greenbay, Wis., Oct. 15.—After holding a posse of 25 officers and citizens at bay at Big Bend on the Wolf river, four miles north of Shawano, Arthur Drier, 16 years old, surrendered and was placed under arrest.

His brother, Calvin Drier, 18 years old, continued to resist arrest by using fire arms which the boys had stolen from a hardware store in Shawano last Saturday evening.

The boys were arrested several days ago for breaking into the same store and were out on bonds when they again entered the store and carried away the entire stock of firearms and ammunition.

They were pursued by the chief of police, but succeeded in escaping by taking a horse from a nearby barn. Escaped in Darkness.

They entered a cave on Kenosha road, where they fired a number of shots at the chief of police, and managed to escape under the cover of darkness. The police later discovered that the boys had taken refuge at Big Bend.

When a posse attempted to capture them its members were driven back by a volley of shots from the brothers' rifles.

After his surrender Arthur Drier is said to have confessed to the burglary and to have revealed the hiding place of most of the plunder. Fifty rifles and 3,000 rounds of ammunition were recovered.

The posse is guarding the hiding place of the other boy and expect to capture him in the morning.

SET THIRTY-CENT LIMIT ON EGGS

Cleveland, Ohio, Headquarters of Movement to Help Cut Down Cost of Living.

Cleveland, Oct. 15.—"No eggs for three weeks," is the battle cry of about 40,000 boycotters in Cleveland and North Ohio, who entered upon a campaign of abstention in the hope of lowering the price.

Strictly fresh eggs are quoted here at 43 cents a dozen. Thirty cents a dozen is the limit the boycotters have set, and they say they won't buy unless the price scales off to that point.

Frank S. Krause is president of the "30 cent egg club," which for two years has registered an effective boycott protest against sky prices on the hen product. He says the club has 20,000 members and at least that many more sympathizers who will join in abstaining from eggs.

Joliet Pastor to Have Leased Wire and Give Election Returns on Night of November 5.

Joliet, Ill., Oct. 15.—The Rev. George Macadam, pastor of a Methodist church here, purposes to give those who wish to take advantage of his plan the returns of the election the night of November 5, surrounded by influences vastly different and more elevating than those found in the saloon.

He will have a leased wire run into his church and get the returns direct. Mr. Macadam arranged the affair in opposition to the saloons, which he said would be open on election night offering election news as an attraction for patronage.

KANSAS BALLOT TO BE SIMPLE

CANDIDATE'S NAMES WILL APPEAR ABOVE ELECTORS.

Action Taken by Attorney General To Make Selection Easier for Voters.

Topeka, Oct. 15.—The Roosevelt presidential electors on the general election ballot in Kansas will be definitely designated by having the names of Roosevelt and Johnson appear at the head of the list. Charles Sessions, secretary of state, and John S. Dawson, attorney general, held that the names of the Progressive candidates for president and vice-president should appear over their own electors as does the names of Taft and Sherman over their electors and Wilson and Marshall over the Democratic electors.

The Roosevelt electors appear in the fourth column of the ballot. At the top appears the word "Independent" and just below it will appear the names of Roosevelt and Johnson and following these comes the list of ten presidential electors, headed by Henry Allen and ending with W. A. White. The action of the attorney general and secretary of state was taken in the interests of liberality in balloting and to aid the voter in expressing his choice for president and vice-president, to keep the voter from making mistakes in his ballot. The voters, however, must make a cross mark in the square at the right of each Roosevelt elector if he wishes to vote for all of them, as he cannot vote in the circle for Roosevelt, as can be done for Taft, Wilson or Debs. On account of the law in Kansas a new party must be organized 120 days before the primary, and the Progressive party was not organized until the day of the primary in Kansas.

BECKER CASE WITNESS ESCAPED

District Attorney Will Insist on Explanation of Circumstances Which Made Escape Possible.

New York, Oct. 15.—Three prisoners escaped from the house of detention on Mulberry street during the night, scaling a spiked brick wall, 20 feet high. The three men were held as witnesses, one of them known to the police as Max Kahn, being an important witness in the Becker case. Kahn was found in the company of "Gyp the Hood" and "Lefty Louie," alleged assassins of Rosenthal when they were arrested in a Brooklyn flat. The district attorney's office will make a searching investigation of the circumstances of his escape.

Politics Delays Capitol Plans.

Jefferson City, Oct. 15.—The political campaign interfered for a second time with a meeting of the commissioners of the permanent seat of government to take action in the matter of the plans for the new state capitol. Only Gov. Hadley and the secretary of state, Cornelius Roach, were in the city. Attorney General Major and Auditor Gordon are looking after the campaign, and Treasurer Sawgill is out of the city. Gov. Hadley called another meeting of the board for next Monday.

Brings Blond Eskimo Curios.

Seattle, Wash., Oct. 15.—Forty-one cases of curios and relics gathered by Dr. Vilhjalmr Stefansson, the Arctic explorer, who discovered a race of blond Eskimos in Victoria Land, were unloaded from the schooner Transit, which brought them down from Point Barrow, Alaska, and are being prepared for shipment to New York, where they will be placed in the American Museum of Natural History.

Bars "Rag" Dances.

Chicago, Oct. 15.—Seventy-two dancing masters, operating as many dance halls, voted to eliminate the "ragtime" dance and its accompanying music from their places of entertainment at a meeting just held. A motion that only the waltz and two-step be allowed hereafter was carried unanimously.

TURKEY REFUSES OFFER OF POWERS

Day's Events Indicate General Outbreak is Inevitable.

MINISTERS PREPARE TO LEAVE

Representatives of Serbia, Greece and Bulgaria Receive Instructions From Home—300,000 Servians to Frontier.

London, Oct. 15.—Turkey has taken up the gauntlet thrown down by the Balkan states, and events in the near East crowded close upon one another to hasten what is believed to be the inevitable general outbreak.

The sultan's government formally declined the proffered interference in its proposed introduction of reforms into Macedonia and coincidentally assumed the offensive itself, invading Serbia.

Serbia's representative at Constantinople, together with those of Greece and Bulgaria, received notification from the home government to prepare to leave on a moment's notice.

The participation of Greece in the conflict was almost assured by the Athens government's deliverance of an ultimatum demanding the release of Greek ships seized at Constantinople. Fought All Day.

Belgrade, Serbia, Oct. 15.—Fighting went on throughout the day along the frontier. The reports of cannon firing could be heard at Vranja coming from the direction of Ristovatz and Vilagoske.

The Turkish force, which crossed the border is backed by a force estimated at 80,000. The Serbian force along the frontier is 150,000. The situation is so serious that the Serbian commander-in-chief, Gen. Radomir Putnik, is leaving for the front.

Serbia has 300,000 men under arms, making for the Turkish frontier. The king's two brothers, Princes Arsene and Alexie, the crown prince Alexander and Prince George, the king's two sons, are also leaving for the front.

No Interference Wanted.

Constantinople, Oct. 15.—The Turkish government declines to allow the powers to intervene in the question of Macedonian reforms.

Its reply to the representatives of the powers was handed to the Austro-Hungarian ambassador here early in the morning. While thanking the European powers for their friendly interest in the Balkan situation the Ottoman government is determined not to tolerate any foreign interference.

Butler county's first carnival, last October, was attended by 30,000 persons in three days. The acreage of Kafir in Butler county this year has increased to 120,000 acres, maintaining it as the greatest Kafir producing county in America.

Committees from the 29 townships of the county are already here decorating their booths on "Kafir Pike." A premium of \$100 will be given the best decorated booth, \$75 to the second, \$50 to the third, \$25 to the fourth and \$15 to the fifth. In all about \$1,000 in premiums will be awarded at the fair.

CITY MAY ASSUME INSURANCE

Minneapolis Considering Plan to Carry Its Own Risks on Municipal Buildings.

Minneapolis, Minn., Oct. 15.—Alderman John Peterson has introduced in the common council a resolution which provides that the city itself carry the fire risks on all public buildings, and it is understood that many councilmen approve it. Mr. Peterson reports that in the last ten years the city has paid \$100,000 in insurance premiums, and the city has sustained fire losses aggregating \$45,000.

Club Women of Ohio Meet.

Athens, O., Oct. 15.—The seventh annual convention of the Ohio Federation of Women's Clubs opened this morning in the Methodist church, the first session being devoted to addresses of welcome, the annual address of the president, Mrs. Howard Hucks of Oberlin, and the transaction of business. The attendance is large and the program for the four days provides for the discussion of many of the important topics of the times.

Stole a Locomotive.

Wichita, Kan., Oct. 15.—A Santa Fe engine was stolen from the railroad's roundhouse early in the morning by James Trenaire and T. L. Jacques discharged employees, to satisfy a grudge. The engine was driven a mile west of Cheney where the men were compelled to abandon it because of a dry water tank. Sheriff Milhaud and Deputy Sheriff Sullentrop recovered the engine.

WOUND IS SERIOUS

(Continued from Page 1)

which retarded its force as it passed through into the flesh.

The assassin was prevented from firing a second shot by Albert H. Martin, one of Col. Roosevelt's two secretaries.

As the party reached the motor car, Col. Roosevelt's companions stood aside and he stepped into the machine. Martin entered directly behind him and sat on the further side of the car. Col. Roosevelt stood up, waving his hat in answer to the cheers of the crowd.

The assassin was standing in the crowd a few feet from the machine.

Fired While Near the Car.

He pushed his way to the side of the car, and raising his gun, fired.

Martin caught the flash of the revolver as the shot was fired and leaped over the car a second after the shot was fired. Before the crowd knew what had happened, Martin, who is six feet tall and a former football player, landed squarely on the assassin's shoulders and had borne him to the ground. He threw his right arm about the man's neck with a deathlike grip.

With his left arm Martin seized the hand that held the revolver. In another second he had disarmed the man.

Col. Roosevelt stood calmly looking on, as though nothing had happened.

DAIRY

Animal is Quite Intelligent, Quick to Learn and of Retentive Memory—Easy to Milk.

The general appearance of an Ayrshire, as you look at her, is striking being alert and full of life and reserved energy. She is a healthy cow, rarely having ailments of body and udder, and you seldom see an Ayrshire cow but that has four healthy quarters in her udder and gives a uniform quantity of milk from each. She is a very persistent milker, giving a uniform quality well up toward calving, and many of them are dried off with difficulty.

She is very intelligent, quick to learn and of a retentive memory, easily taught to take the same place in the stable and, if required to change, will in a few days readily take the new place. She is quiet and pleasant to milk, not easily disturbed, and will as a rule yield her milk as readily to one milker as to another, and does not seem disturbed by any amount of noise in the stable.

As a dairy cow she is particularly adapted to the production of milk for the milkman and for table use, as her medium size, vigorous appetite and easy keeping qualities make her an economical producer, while her even, uniform production makes her a reliable supply, and the richness of her milk in total solids places it above suspicion from city milk inspectors. Her milk is particularly adapted to transportation, as it does not curdle or sour easily, and when poured back and forth a few times will readily mix the cream back into the milk, which will not again readily separate, giving it a uniform quality until the last is sold or used. It has a good body, is rich looking and never looks blue. The milk itself being easily balanced with casein and butter fat, is a complete food, easily digested, nutritious, and is particularly adapted to children and invalids. Stomachs that are weak and unable to digest other milk find no trouble with Ayrshire cow's milk.

EUROPEAN TRIP A RELIEF FROM CARE

For years the Browns had planned a European trip, but every year something happened to prevent their getting away. First the children were ill and then Mrs. Brown invited guests for a short time, who stayed several months, preventing the Browns, by the dwindling of the bank account, from going abroad that year. Thus things went on.

Finally Brown declared as an absolute certainty that Europe would see them the following year. All their friends were notified and everything was done to make it impossible for their trip to be prevented.

When all was ready, however, Brown was ordered by his firm to secure a particularly desirable contract at any cost. It meant a lot to the firm and to Brown, but it also meant months of untiring effort—effort that could not be put forth in Europe.

Brown, however, had made his vow and he refused to let his business interfere with his family's plans. The family could go to Europe even if he couldn't. They had relatives abroad, and, besides, he could send them with a party. So he packed them on the train and looked as cheerful as possible when it pulled out.

When he returned home, however, he began to realize how lonesome it was there. It got on his nerves finally and he resolved to board during his bachelorhood. So he moved to a hotel.

Then the thought came to him to rent his house for the months that it would be vacant unless he rented it. There was no earthly use in letting it stand and gather dust, which was the same as throwing away a goodly sum of money each month. Some one would be only too glad of the opportunity to live in a well furnished house in a fashionable suburb, with all the benefits of the Browns' home comforts. Some one, no doubt, was searching eagerly for such an opportunity. So Brown hastened to advertise the treat in store for some one.

The number of replies he received was highly gratifying to him. After picking out the letter written on the best appearing stationery he clucked the bargain over the telephone. Of course, the tenants refused to pay nearly what he thought his house was worth, but on reflection he concluded that they were really caretakers for him who would look after his property generally. He even began to feel under obligations to them for their willingness to take his house and he urged them to make themselves perfectly at home, assuring them that everything in the house was theirs to use as they desired.

When he hung up the receiver he heaved a sigh of relief and content. He needn't even think of the house again until his family were about to return. It was really a great idea of his to have some one take care of the property for him; now he could devote his entire time to the task of getting that important contract.

It was about a week later that over the telephone he listened to a very indignant feminine voice commanding his immediate presence at his home. Fearing no less calamity than a fire, Brown hastened to catch the first train to the familiar suburb.

"What's the matter?" he asked of the woman who opened the door after he had established his identity.

"Why," she replied, without inviting him in, "I wanted to ask you where I can find the potato knife and the carving set. And when you rented us this place you gave us to understand that it was completely furnished! Well, ever since we moved in we've been unable to find things we ought to have! There are no oyster forks nor individual butter knives! And the table linen is a disgrace—we could never invite guests to dine with us with such linen!"

"And the water froze the first night we were here, so we had to have a plumber, and that was \$7. He says your drains are in a terribly insanitary condition, and if we get typhoid we shall certainly charge our doctor bills to you! You've no business advertising a perfect home—it's getting money under false pretenses!"

"We've had to buy lots of little things. Your brooms are dreadful, and some of your kitchen utensils were absolutely worn out. We'll just take the cost out of the rent—for, of course, the things will belong to the house."

Brown had ceased to listen. He was contemplating the gown worn by his tenant—a dainty house dress of Mrs. Brown's. His wife had left much of her wardrobe at home, he knew. In the doorway, to receive the first footprints of the newcomers, was the Browns' most valuable rug, treasured as very gold! He wondered what might lie beyond his vision!

He stuttered helplessly, trying to express his dissatisfaction, but the glare of righteous indignation in his tenant's eyes rendered him inarticulate.

"All the rent for the first month is already paid out," said the woman. "When the plumber's bill comes in shall we send it to you, or shall we pay it out of next month's rent?"

"There—there won't be another month!" exploded Brown, turning on his heel to prevent himself from making further unseemly remarks. But as he stamped along the street he recalled that the objectionable occupants of his home had a lease to fortify them against his wrath.—Chicago Daily News.

HOW ONE WOMAN WON

Her Health and Strength Back Again by The Use of Cardui.

Tampa, Fla.—In a letter from this city, Mrs. E. C. Corum writes: "I was all weakened and worn out with womanly troubles. My husband brought me some Cardui as a tonic, and, from the first day, it seemed to help."

I had almost lost my reason, but, thanks to Cardui, I did not. Soon, I felt and looked like a new woman. I think the remedy is wonderful. I recommend it to my friends, for I have received great benefit from it."

Cardui acts specifically on the weakened womanly organs, strengthening the muscles and nerves, and building them up to health.

It helps to refresh the worn-out nervous system and relieves the effects of overwork, both mental and physical. Fifty years' successful use fully prove the merit of this purely vegetable, tonic remedy for women.

In every community, there live some who have been benefited by Cardui. The beneficial effects of this time tested woman's remedy, soon show themselves in many different ways. Try it.
